

Bioinformatics in Ageing Research Satellite Workshop

Halle (Saale), Friday, September 1st 2017, approx. 9-17 h,
followed by the 8th Ageing Meeting in Halle, September 1-3, 2017

Invited speakers: Claudio Franceschi, Judith Campisi, Andrea Maier and Jan Hoeijmakers.

Call for Presentations

You are cordially invited to submit an abstract for a talk describing your work. The deadline for submission is June 15, 2017. Please send your abstract and/or questions to ibima-events@med.uni-rostock.de and expect a response (whether your abstract has been accepted) by July 1, 2017.

Presentations by experimentalists describing their data & their open questions regarding data analysis are very welcome. Short talks (5-20 minutes) by experimentalists are strongly encouraged and it is OK if these just describe "your bioinformatics needs". Presenters of accepted abstracts will usually be given a 20-minute time slot (plus 5 minutes for questions) in the meeting schedule. A poster session is planned if the slots for oral presentations are oversubscribed. Accepted abstracts will be published on the Website.

Venue

Hörsaal 1, Steintor-Campus,
Adam-Kuckhoff-Straße 35,
06120 Halle (Saale)

Registration

Please send email to ibima-events@med.uni-rostock.de, with the following data:
+ title, family name, given name + institution, department
+ address, country + telephone + email address
