

# SEND TRAINEES TO CANADA FOR SUMMER PROGRAM IN AGING

*Longer-living older adults:*

*Multidisciplinary approaches to a growing area of research on aging*

The **Canadian Institutes of Health Research-Institute of Aging** has partnered with the **Nova Scotia Centre on Aging, Mount Saint Vincent University** to host the Institute's flagship training program in aging in 2023.

The Summer Program in Aging (SPA 2023) will be held from June 4-9, 2023 in Nova Scotia and the focus will be **Longer-living older adults: Multidisciplinary approaches to a growing area of research on aging** (visit [www.spa2023.ca](http://www.spa2023.ca) for description and specific objectives).

Trainees will have the opportunity to participate in this advanced training that crosses disciplines and brings together trainees and leading researchers from Canada and abroad. Over the course of the week, up to 40 Canadian trainees and a number of international trainees will engage in learning sessions, experiences, and activities built around the core thematic area of longer-living older adults. They will explore fundamental topics such as research and professional skill building, grant writing, communication, inclusion and diversity, and knowledge mobilization and knowledge translation.

**You are invited to consider sending your trainees for this rich, immersive learning opportunity. Deadline to confirm your intent to support your trainees - January 30, 2023.** Approximate cost per trainee is \$2500 (Canadian) which includes lodging, local transportation and registration fee (not airfare). Event will be conducted in English. Local COVID protocols will apply.

June 4-9,  
2023
